Identify Algebra Readiness

In only 50 minutes, determine whether your students have the necessary skills for Algebra I.

Prepare Students for Algebra Success

Iowa Algebra Aptitude Test (IAAT™) assesses students' readiness for Algebra I and identifies students who need extra support and intervention prior to taking algebra courses. Research demonstrates that IAAT results correlate with Algebra 1 course grades and lower Algebra attrition rates.

IAAT is available for paper/pencil administration and is now available for online testing through EdAssess in the EdPower platform.

Features and Benefits:

- Alignment to the most recent National Council of Teacher of Mathematics (NCTM) standards ensures the skills assessed are relevant to today's Algebra curriculum
- Two parallel forms are ideal for pre- and post-testing
- Administration takes only fifty minutes – just one class period
- Online testing and reporting provides convenient results for large or small groups of students
