Analytics for District Administrators, School Administrators, and Data Teams

1. Test-level summaries for Reading and Math that provide group average Standard Score and National Percentile Rank (NPR) scores, as well the percentage of students in leveled performance bands.

2. Domain-level summaries that provide group percentages of students in low, mid, and high performance bands.

3. Tabular comparison of schools or classes throughout the district with test and domain level scores.

4. All displays provide opportunities to interact with data including disaggregations, creating custom school groups, drilling down to isolate students in performance bands, searching, sorting, and filtering.

For program information go to www.purposefuldesign.com and select Assessment Support, email assessmentsupport@acsi.org, or call 800.367.0798.
