the EE Webinars

We have a great opportunity to shepherd children and families in the truth of who they are and how they were designed to flourish. Be rooted in truth, reimagine potential, and REIGNITE your calling to teach and lead children. Engage with experts in the field of early childhood training and education who will share research-based insights. Grow in understanding about how children learn and how to meet their needs spiritually, emotionally, socially, physically, and cognitively.

Mark your calendar and make plans to join us so that you can grow in your passion of leading and teaching young children!
